

Please support my First Amendment rights.
I enjoy listening to music without advertisements and senseless talk.
Music that I enjoy and not what someone else thinks I like.

I do not enjoy the repetitive nature of broadcast programming when they repeat the same song and news and sports stories over and over during the day.

If I want the latest news, or detailed weather and traffic for my town, I'll go to my local broadcast station.

For general traffic and weather for the New York metropolitan area, I prefer XM Radio.

Protect my freedom of choice.

Thank you.
